

## 4 Bitten Fruit

*In the beginning God created the heavens and the earth, the earth's waters and its land. Then God said, "Let the land produce trees that bear fruit."*

*And it was so...and it was good.*

*God likewise created man and woman. Then man and woman said, "Let us take this fruit grown from trees and make a delicious drink."*

*And it was so...and it was very good.*

**4 Bitten Fruit** is a crisp, sparkling hard apple cider that is brewed with a blend of apple juices. It is light and bubbly much like a sparkling apple wine. It is not too sweet and it is not too tart. It is sinfully delicious.

Go ahead... try it. What's the worst thing that could happen?
