

Unpasteurized -PLEASE KEEP REFRIGERATED

Valkyrie Brewing Company (F.K.A. Viking) is a small, family-owned & operated microbrewery located in Northwest Wisconsin. Valkyrie has an extensive line of beers and uses many strains of yeast. Valkyrie chooses **NOT** to pasteurize its beers. Unpasteurized beer still contains live yeast suspended in the beer itself. The yeast is the heart and soul of the beer and a vital part of the beers' flavor profile. Our beers are living products and will continue to change over time. Thank you for choosing Valkyrie.
